Overview

I have taught introductory and intermediate economics, data analytics, and finance courses in face-to-face, accelerated, and online formats. The results below summarize 27 course sections taught at the University of Oklahoma and East Central University between 2021 and 2026.

Student Evaluation Summary

At East Central University, 302 of 457 students (66 percent) completed evaluations across 20 sections from Fall 2024 to Summer 2026. The response-weighted overall mean was 4.16 out of 5. For context, the College and University averages reported alongside each ECU section produce response-weighted benchmarks of 4.32 and 4.49, respectively, across these same sections. Students rated opportunities to ask questions (4.49), respect for students (4.48), accessibility (4.37), fair evaluation (4.28), and timely feedback (4.27) especially highly.

Course	Sections	Responses	Response Rate	Overall Mean
Principles of Macroeconomics	6	120	66.7%	4.20
Principles of Microeconomics	3	48	58.5%	4.41
Business and Economics Statistics	5	80	66.7%	4.07
Financial Markets and Institutions	2	25	73.5%	3.71
Commercial Banking Management	2	15	88.2%	4.18
Data Analytics* (MBA, Graduate)	2	14	58.3%	4.18
All ECU courses	20	302	66.1%	4.16

Notes: ECU ratings use a 1–5 scale. For each item j , the response-weighted mean is $\sum_s (n_s \times \bar{x}_{sj}) / \sum_s n_s$, where n_s is the number of respondents in section s and $\bar{x}_{sj}$ is that section's mean for item j . Course and overall means use the same weighting. *Data Analytics is the current course title; it was formerly Quantitative Methods for Accounting.

(See next page for evaluation by item)

Evaluation Details

East Central University

The table below reports response-weighted averages across the 20 ECU sections. It preserves the individual evaluation items while keeping the summary readable.

Evaluation item	Mean
Course objectives were clearly stated	4.21
Class time was used effectively	4.04
Work was returned in time to guide progress	4.27
The syllabus and course calendar were followed	4.36
The instructor was well organized	4.08
The instructor knew the course material	4.09
Explanations were understandable	3.83
Coursework provided worthwhile learning experiences	3.91
The course increased competence in the subject	3.84
Evaluation of student performance was fair	4.28
The instructor helped students learn	3.93
The instructor showed respect for students	4.48
Students had opportunities to ask questions	4.49
The instructor showed interest in teaching	4.31
The instructor was accessible to students	4.37
The instructor was an effective teacher	4.04

Notes: ECU ratings use a 1–5 scale, from Strongly Disagree to Strongly Agree.

University of Oklahoma

OU used a 5-point course evaluation in 2021 and a categorical Student Experience Survey in 2022–2023, so the two instruments are shown separately.

Instrument	Evaluation item	Result
2021 course evaluation	Fair grading	4.64 / 5
2021 course evaluation	Preparation and handling questions	4.05 / 5
2021 course evaluation	Overall teaching effectiveness	3.91 / 5
2022–2023 Student Experience Survey	Expectations and grading were very clear	89%
2022–2023 Student Experience Survey	Frequently organized and prepared	84%
2022–2023 Student Experience Survey	Assignments frequently connected to course goals	81%
2022–2023 Student Experience Survey	Always felt respected	87%
2022–2023 Student Experience Survey	Frequently received timely feedback	76%

Notes: The 2021 results are averages across two courses. Later percentages are cross-course averages for the stated response category.

Selected Student Comments

“Dr. Chaudbry has been an engaging professor who has always been accessible and forthcoming. I appreciate his efforts and time engaged with us online.”

— Data Analytics, East Central University, Spring 2026

“Ahmed Chaudbry is a very knowledgeable instructor and explains concepts clearly. He is friendly and supportive, and students are welcome to ask questions and participate.”

— Principles of Microeconomics, East Central University, Spring 2026

“The syllabus and instructions for each week were very organized and very helpful to keep me on track! Very easy to communicate with.”

— Principles of Macroeconomics, East Central University, Summer 2026

“Dr. Chaudbry was very helpful and willing to help us whenever needed. He was also very on top of things and very organized.”

— Business and Economics Statistics, East Central University, Fall 2024

“The case studies were helpful for research, writing, and applying the material to real life.”

— Principles of Microeconomics, University of Oklahoma, Spring 2023

“I really liked the case discussions! They were beneficial to understanding some concepts.”

— Intermediate Microeconomic Theory, University of Oklahoma, Summer 2023
